

NEWS RELEASE

STREAMLINE TRANSIT BENEFITS WITH SUNFLOWER

The U.S. Department of Education (DoED) recently began using Sunflower Assets® to manage their employees' transit benefit program.

WASHINGTON, DC, September, 2008 – Sunflower Systems, the leading provider of asset management solutions and software, announces that it has recently deployed an online application capability to allow users to apply for transit benefits. The Sunflower Transit Benefits team worked closely with Transit Personnel to replace what was previously a paper application process. DoED employees will now complete and submit an application for a parking permit in Sunflower, and upon review, a DoED Transit Administrator will have the ability to approve or deny the application online, or place the application on a waitlist. The new functionality will provide DoED Transit Administrators the ability to quickly retrieve, review and approve parking applications, and generate a variety of real-time reports of employee parking information more efficiently. In addition, Sunflower has developed functionality to allow the actual displayed Parking Permits to be generated directly from a Sunflower report.

About Sunflower Systems

Sunflower Systems is an asset management solutions company specializing in the deployment of software tools and business processes to simplify asset management tasks. Sunflower's portfolio of solutions enables organizations to improve decision-making, accountability and regulatory compliance for all types of assets including personal property, real property, IT assets, materials, vehicles and more.
