

SUNFLOWER SYSTEMS USER GROUP

Join the Sunflower Systems User Group

The Sunflower Systems User Group is a formally organized, not-for-profit organization whose purpose is to provide a forum for Sunflower Systems customers to network, exchange ideas and information, share business tools, and to communicate with Sunflower Systems and their partners to share the business needs and goals of members.

The only requirement for membership is to maintain and administer an instance of one or more Sunflower Systems products and hold an active maintenance agreement with Sunflower Systems.

User Group Member Benefits:

- Regularly scheduled conference calls to discuss issues of mutual interest to the group
- Access to other Sunflower users for assistance or guidance in using the application and solving problems
- Strong relationship with Sunflower Systems
- Annual conference with presentations by fellow users and Sunflower Systems
- Special interest groups for individual members with similar interests
- Presentations by Sunflower Systems and members on subjects of general interest
- Sharing of creative uses of Sunflower applications for tracking non-traditional assets

How do you join?

Membership is free and is open to users of Sunflower Enterprise with an active maintenance agreement with Sunflower Systems. Membership is free and is open to users of Sunflower Enterprise with an active maintenance agreement with Sunflower Systems.
