SUNFLOWER SYSTEMS LAUNCHES NEW TOOL TO AUTOMATE FAST REPORT

The Federal Automotive Statistical Tool (FAST) is the product of a joint initiative by the Department of Energy and GSA to assist fleets in meeting the data reporting requirements of Executive Order 13149.

ARLINGTON, Virginia, February, 2008 – Sunflower Systems™, the leading provider of asset management solutions and software, announces the release of a new solution that will automate the FAST reports for organizations managing their motor vehicles within Sunflower Assets®. The FAST (Federal Automotive Statistical Tool) is the product of a joint initiative by the Department of Energy and GSA to assist fleets in meeting the data reporting requirements of Executive Order 13149. To comply, all government agencies leasing or owning 20 or more motor vehicles must report detailed fleet information into the FAST on an annual basis.

The Sunflower FAST Reporting solution will enable streamlined, repeatable processes for conducting FAST reporting. Additionally, it was designed to ensure that all generated FAST reports comply with FAST interface acceptance standards.

Robert King, a Business Analyst at Sunflower states that, “the FAST Reporting solution is an example of how Sunflower has strived to increase our client’s return on investment from their asset management system. This solution will not only will deliver efficiencies towards regulatory reporting, it will provide property managers immediate opportunities to strengthen their processes pertaining to motor vehicle management.”

About Sunflower Systems
